Dear Parent or Guardian:

Seaford School District (SSD) is once again proud to announce that all students of SSD are able to eat school breakfast and lunch for FREE during the 2022 – 2023 school year!

SSD has been approved for full renewal of the Community Eligibility Provision (CEP) from Delaware's Department of Education by way of the United States Department of Agriculture (USDA). CEP is a federally funded program, therefore local school district, city, or community funds are NOT required to support this program. CEP has eliminated the burden of completing meal benefit forms. Every enrolled student is able to eat both breakfast and lunch free of charge without filling out any forms. It's that simple!

Students will still be required to enter their lunch PIN to receive their meal. PIN entries are used to keep track of how many meals are served and must be counted daily for recording purposes. As an added benefit, PIN also allow us to identify and track those students with food allergies. Students will still have the ability to add money to their accounts which they will need in order to purchase any food items outside the reimbursable meal, such as snacks or second entrees.

Students can still have money added to their account via PayPams. Please visit the *What We Do* section for more information regarding PayPams, menus, or other Nutrition Services information at:
